

## Symposium Moderators

**Nancy P. Mendenhall, M.D.**  
Professor & Associate Chair  
Department of Radiation Oncology  
Medical Director, University of Florida  
Proton Therapy Institute  
University of Florida College of Medicine  
Jacksonville, FL

**Fauzia N. Rana, M.D.**  
Assistant Professor  
Department of Medicine  
Chief, Division of Hematology and  
Medical Oncology  
University of Florida College of Medicine  
Jacksonville, FL

**Martha C. Wasserman, M.D.**  
Assistant Professor  
Department of Radiology  
Chief, Division of Women's Imaging  
University of Florida College of  
Medicine  
Jacksonville, FL

## Symposium Description

The symposium provides a multidisciplinary overview of the diagnosis and treatment of all stages of breast cancer. Symposium faculty includes experts in the fields of surgery, oncology, pathology, radiology, and patient advocacy. The target audience includes clinicians, specialists, and scientists involved in the care and treatment of patients with breast disease, as well as research and education concerning this important disease.

## Objectives

Upon completion of this course, participants should be able to:

- Specify the course of events leading to the current progress in breast cancer diagnosis therapy and follow-up management.
- Recognize the significance of replacing total axillary dissection with sentinel lymph node biopsy as a minimally invasive therapeutic procedure.
- Evaluate the impact of hormone replacement therapy on the incidence of breast cancer.
- Demonstrate the role of molecular targeted therapy in providing individualized chemotherapy.
- Assess the realistic contribution of breast cancer screening mammography.
- Analyze the role of discovery of breast cancer genes and the value of stratification of patients to enroll into various risk reduction strategies.
- Describe the principle of pre-surgical neoadjuvant chemotherapy in breast cancer patients.
- Discuss the role of radiotherapy and chemotherapy in early and metastatic breast cancer.
- Summarize the concept of oncoplasty, i.e., combining surgical oncology with reconstructive surgery in providing better cosmetic results in breast cancer patients.
- Describe different approaches of oncoplastic surgery.

## Pre-Symposium Workshop

**Thursday, February 9, 2012**  
The Ritz-Carlton, Amelia Island

12:00p.m. – 01:00p.m.	<b>Pre-Symposium Workshop Registration: The Art and Science of Oncoplastic Surgery</b>
01:00 p.m. – 01:30 p.m.	<b>Current Concepts in Oncoplastic Surgery and Breast Reconstruction</b> Aldona Spiegel, M.D.
01:30 p.m. – 02:00 p.m.	<b>Optimizing Breast Conservation Surgery</b> Sheldon M. Feldman, M.D.
02:00 p.m. – 02:30 p.m.	<b>BREAK</b>
02:30 p.m. – 03:00 p.m.	<b>Autologous Breast Reconstruction</b> Aldona Speigel, M.D.
03:00 p.m. – 03:30 p.m.	<b>Total Skin Sparing, Nipple Sparing Mastectomy - Current Concepts</b> Sheldon M. Feldman, M.D.
03:30 p.m. – 04:00 p.m.	<b>PANEL DISCUSSION</b>

## CME Accreditation and Credits

The University of Florida College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The University of Florida College of Medicine designates this live activity for a maximum of 18 *AMA PRA Category 1 Credits*<sup>™</sup>. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

## Location

Amelia Island, with the historic, picturesque town of Fernandina Beach, is a hidden pearl at the tip of the South's barrier islands. Surrounded by waters teeming with fish, this deepwater port is still home to one of America's first shrimp fleets. The tranquil beauty of gnarled oaks and heron-guarded ponds flank some of America's top-rated fairways. Picturesque shops are a treasure-trove of antiques and fashion. Fine restaurants bring the sea's fresh harvest and other gourmet delights to your table. Ride a horse on the beach, work out on the tennis court, then cool down in indigo waters that invite sailing, surfing and angling.

## Travel

Lorraine Travel Bureau, Inc. has been selected as the official travel agency for the symposium. Lorraine Travel is offering special meeting fares on round-trip travel to the symposium. Symposium participants may obtain further details on discounted airfares by calling Ms. Chanel Cerqueira at Lorraine Travel at 800-666-8911, ext 3101 or by email at [chanel@lorraine-travel.com](mailto:chanel@lorraine-travel.com). Please be sure to mention "The 17<sup>th</sup> Annual Multidisciplinary Symposium on Breast Disease" when you call.

Amelia Island is approximately 25 minutes from the Jacksonville International Airport. Take I-95 north from the airport to Fernandina Beach/Amelia Island (Exit 373). Turn east on Highway A1A to Amelia Island. Once on the island, turn right at the first traffic light. Proceed approximately 2.3 miles and veer left at the Summer Beach Resort sign. Continue 1 mile to the entrance of the hotel. **Travel to and from the airport is the responsibility of the participant, but please check program website for information on ride sharing.** [www.cme.ufl.edu/msbd2012](http://www.cme.ufl.edu/msbd2012)

## Accommodations for Disabilities or Special Requests, including Dietary

Please notify the UF CME Office a minimum of ten working days prior to the conference so that adequate consideration may be given to your request. Special Dietary restrictions should also be submitted in advance.

## Refund Policy

A full refund will be given for written cancellations received on or before **January 6, 2012**. Refunds after this date and up to **January 16, 2012** will be subject to a \$50.00 processing fee. **NO REFUNDS WILL BE GIVEN AFTER JANUARY 16, 2012**, but substitutions are allowed with advance notice. In the event of postponement or cancellation, a full registration refund will be given. The University of Florida is not responsible for any related costs or expenses including cancellation or change in charges assessed by the airlines.
