

# Giving Lung Cancer Patients Better Results with Robotic Surgery

## Presented by:

Tiago Machuca, MD, PhD  
Assistant Professor, Thoracic and Cardiovascular Surgery  
University of Florida College of Medicine

## Faculty Disclosure:

Dr. Machuca has disclosed that he has no relevant financial relationships. No one else in a position to control content has any financial relationships to disclose.

## CME Advisory Committee Disclosure

Conflict of interest information for the CME Advisory Committee members can be found on the following website: <https://cme.ufl.edu/disclosure/>.

**Release Date:** January 7, 2020

**Expiration Date:** January 6, 2022

## Target Audience:

Thoracic Surgeons, Pulmonary Medicine Physicians, Medical Oncologists, Radiation Oncologists

## Learning Objectives:

As a result of participation in this activity, participants should be able to:

1. Understand current treatment algorithms for early-stage lung cancer
2. Identify the potential benefits from minimally invasive thoracic surgery to treat lung cancer
3. Recognize expected quality metrics that lead to improved outcomes

**Accreditation:** The University of Florida College of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

**Credit:** The University of Florida College of Medicine designates this enduring material for a maximum of 0.25 *AMA PRA Category 1 Credits*<sup>™</sup>. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**Contact Info:** If you have any questions please feel free to contact Alisha Katz at 352.265.0373 or at [kinmaa@shands.ufl.edu](mailto:kinmaa@shands.ufl.edu)
